## SKILLS

- **Programming Languages:** Python, C++, JavaScript
- **Machine Learning & Data Science:** Scikit-learn, TensorFlow, NumPy, Pandas, Matplotlib, Seaborn, NLP
- **Web & Application Development:** Streamlit, Flask, ReactJS, HTML, CSS, Bootstrap, ReactJS
- **Databases & Data Tools:** SQL, MySQL, SQLite
- **Tools & Platforms:** Git, GitHub, AWS, Google Colab
- **Core CS Fundamentals:** DSA, DBMS, Operating Systems, Computer Networks, OOP
- **Soft Skills:** Problem-Solving, Adaptability, Time Management, Leadership

## PROJECTS

### Sentiment Analysis – ML-Based Text Sentiment Classification | [GitHub](#) | [Live](#) October 2025 – November 2025

- Developed a machine-learning sentiment analysis system using TF-IDF-based text features and supervised ML algorithms to predict positive, negative, and neutral sentiments.
  - Implemented NLP preprocessing including **tokenization, stopword removal, and feature extraction** to improve classification accuracy.
  - Built a **Streamlit web application** supporting real-time sentiment prediction and batch text analysis..
  - Designed a user-friendly interface with dynamic visualizations to present sentiment predictions clearly
- Tech Stack:** Python, Scikit-learn, Streamlit, Pandas, NumPy, TF-IDF.

### Email Classifier – ML-based Email Categorization System | [GitHub](#) March 2025 – April 2025

- Developed a TensorFlow/Keras neural network model to classify emails into Work, Personal, and Spam using custom preprocessing and tokenization.
  - Built a Flask-based backend for real-time email text inference and served predictions securely and efficiently.
  - Designed a responsive HTML/CSS/JavaScript frontend for user input and result display, optimized for clarity and usability.
  - Integrated Chart.js visualizations to present prediction confidence scores through an intuitive bar chart.
- Tech Stack:** Python, Flask, TensorFlow, Keras, HTML, CSS, JavaScript, Bootstrap, Chart.js.

## TRAINING

### Machine Learning with Data Science – Cipher Schools | [Certificate](#) June 2025 – July 2025

- Completed hands-on training in machine learning, data preprocessing, statistical analysis, and data visualization.
- Gained practical experience implementing supervised & unsupervised ML algorithms and building AI-based applications.
- Worked with industry tools including NumPy, Pandas, Matplotlib, Seaborn, Plotly, and Git version control.

## CERTIFICATES

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle | [Link](#) September 2025
- JavaScript Essentials – NxtWave | [Link](#) September 2025
- Programming Foundations with Python – NxtWave | [Link](#) July 2024
- Introduction to Databases (SQL) – NxtWave | [Link](#) May 2024
- AWS Solution Architect Micro Degree | [Link](#) April 2024

## ACHIEVEMENTS

- Solved 250+ coding problems across NxtWave, LeetCode, sharpening problem-solving skills. January 2025
- Certified for building a Generative AI application in NxtWave's Generative AI Mega Workshop. March 2024

## EDUCATION

**Lovely Professional University** Punjab, India  
*Bachelor of Technology - Computer Science and Engineering; CGPA: 7.94* August 2023 – Present

**Sri Chaitanya Junior College** Vijayawada, Andhra Pradesh  
*Intermediate; Percentage: 94.3%* June 2022 - May 2023

**ZP High School** Vakatippa, Andhra Pradesh  
*Secondary School; Percentage: 90.5%* August 2020 - May 2021
